

Semiannual report

# John Hancock ETFs

October 31, 2023

# A *message* to shareholders

Dear shareholder,

Stocks posted mixed results for the six months ended October 31, 2023. U.S. equities ended the period with a gain, while global equities declined. In August, a sharp rise in oil prices raised concerns that inflation would reaccelerate. Investors began factoring in a higher for longer interest-rate environment, with reduced expectations for significant rate cuts in 2024. Geopolitical issues, including armed conflict in the Middle East, tensions between China and the West, and the ongoing conflict in Ukraine, also weighed on investors' mood.

Bond yields rose sharply, putting downward pressure on bond prices, as recent economic and inflation data led to expectations that the central banks would not be lowering short-term interest rates anytime soon.

In these uncertain times, your financial professional can assist with positioning your portfolio so that it's sufficiently diversified to help meet your long-term objectives and to withstand the inevitable bouts of market volatility along the way.

On behalf of everyone at John Hancock Investment Management, I'd like to take this opportunity to welcome new shareholders and thank existing shareholders for the continued trust you've placed in us.

Sincerely,

Kristie M. Feinberg

Kek

Head of Wealth and Asset Management, United States and Europe Manulife Investment Management

President and CEO, John Hancock Investment Management

This commentary reflects the CEO's views as of this report's period end and are subject to change at any time. Diversification does not guarantee investment returns and does not eliminate risk of loss. All investments entail risks, including the possible loss of principal. #### Notes about risk

Each fund is subject to various risks as described in the fund's prospectus. Political tensions, armed conflicts, and any resulting economic sanctions on entities and/or individuals of a particular country could lead such a country into an economic recession. A widespread health crisis such as a global pandemic could cause substantial market volatility, exchange-trading suspensions, and closures, which may lead to less liquidity in certain instruments, industries, sectors, or the markets, generally, and may ultimately affect fund performance. For more information, please refer to the "Principal risks" section of the prospectus. Current and future portfolio holdings are subject to change and risk. Investing involves risk, including the potential loss of principal. There is no guarantee that a fund's investment strategy will be successful and there can be no assurance that active trading markets for shares will develop or be maintained by market makers or authorized participants.

### Your expenses

These examples are intended to help you understand your ongoing operating expenses of investing in the fund so you can compare these costs with the ongoing costs of investing in other funds.

### **Understanding fund expenses**

As a shareholder of a fund, you incur two types of costs:

- Transaction costs, which may include creation and redemption fees and brokerage charges.
- Ongoing operating expenses, including management fees, and other fund expenses.

We are presenting only your ongoing operating expenses here.

### Actual expenses/actual returns

The first line of each fund in the following table is intended to provide information about a fund's actual ongoing operating expenses, and is based on the fund's actual NAV return. It assumes an account value of \$1,000.00 on May 1, 2023, with the same investment held until October 31, 2023.

Together with the value of your account, you may use this information to estimate the operating expenses that you paid over the period. Simply divide your account value at October 31, 2023, by \$1,000.00, then multiply it by the "expenses paid" from the table. For example, for an account value of \$8,600.00, the operating expenses should be calculated as follows:

Example 
$$\left[ \begin{array}{c} \text{My account value} \ / \ 1,000.00 = 8.6 \end{array} \right] \quad \text{x} \quad \ \ \, \ \, \ \, \left[ \begin{array}{c} \text{"expenses paid"} \\ \text{from table} \end{array} \right] \quad = \quad \begin{array}{c} \text{My actual} \\ \text{expenses} \end{array}$$

### Hypothetical example for comparison purposes

The second line of each fund in the following table allows you to compare a fund's ongoing operating expenses with those of any other fund. It provides an example of the fund's hypothetical account values and hypothetical expenses based on the fund's actual expense ratio and an assumed 5% annualized return before expenses (which is not the fund's actual return). It assumes an account value of \$1,000.00 on May 1, 2023, with the same investment held until October 31, 2023. Look in any other fund shareholder report to find its hypothetical example and you will be able to compare these expenses. Please remember that these hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period.

Remember, these examples do not include any transaction costs. A fund charges a transaction fee per creation unit to those creating or redeeming creation units, and those buying or selling shares in the secondary market will incur customary brokerage commissions and charges. Therefore, these examples will not help you to determine the relative total costs of owning different funds. If transaction costs were included, your expenses would have been higher. See the prospectus for details regarding transaction costs.

#### SHAREHOLDER EXPENSE EXAMPLE CHART

	Account value on 5-1-2023	Ending value on 10-31-2023	Expenses paid during 10-31-2023 <sup>1</sup>	Annualized expense ratio
Corporate Bond ETF				
Actual expenses/actual returns	\$1,000.00	\$ 941.50	\$1.42	0.29%
Hypothetical example for comparison purposes	1,000.00	1,023.70	1.48	0.29%
International High Dividend ETF				
Actual expenses/actual returns	\$1,000.00	\$ 958.70	\$2.26	0.46%
Hypothetical example for comparison purposes	1,000.00	1,022.80	2.34	0.46%
Mortgage-Backed Securities ETF				
Actual expenses/actual returns	\$1,000.00	\$ 948.40	\$1.91	0.39%
Hypothetical example for comparison purposes	1,000.00	1,023.20	1.98	0.39%
Preferred Income ETF				
Actual expenses/actual returns	\$1,000.00	\$ 975.70	\$2.68	0.54%
Hypothetical example for comparison purposes	1,000.00	1,022.40	2.75	0.54%

### SHAREHOLDER EXPENSE EXAMPLE CHART (continued)

	Account value on 5-1-2023	Ending value on 10-31-2023	Expenses paid during 10-31-2023 <sup>1</sup>	Annualized expense ratio
U.S. High Dividend ETF				
Actual expenses/actual returns	\$1,000.00	\$ 986.10	\$1.70	0.34%
Hypothetical example for comparison purposes	1,000.00	1,023.40	1.73	0.34%

Expenses are equal to the annualized expense ratio, multiplied by the average account value over the period, multiplied by 184/366 (to reflect the one-half year period).

		Yield (%)	Shares	Value
Short-term investments 1.2%				\$341,541
(Cost \$341,542)				
Short-term funds 1.2%				341,541
John Hancock Collateral Trust (D)		5.5153(E)	34,166	341,541
Total investments (Cost \$32,235,004) 99.5%				\$27,672,107
Other assets and liabilities, net 0.5%				142,064

The percentage shown for each investment category is the total value of the category as a percentage of the net assets of the fund.

^All par values are denominated in U.S. dollars unless otherwise indicated.

### **Security Abbreviations and Legend**

CME Chicago Mercantile Exchange

Total net assets 100.0%

- IO Interest-Only Security (Interest Tranche of Stripped Mortgage Pool). Rate shown is the annualized yield at the end of the period.
- SOFR Secured Overnight Financing Rate
- (A) These securities are exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold, normally to qualified institutional buyers, in transactions exempt from registration. Rule 144A securities amounted to \$11,111,587 or 39.9% of the fund's net assets as of 10-31-23.

\$27,814,171

- (B) Variable or floating rate security, the interest rate of which adjusts periodically based on a weighted average of interest rates and prepayments on the underlying pool of assets. The interest rate shown is the current rate as of period end.
- (C) Variable rate obligation. The coupon rate shown represents the rate at period end.
- (D) Investment is an affiliate of the fund, the advisor and/or subadvisor.
- (E) The rate shown is the annualized seven-day yield as of 10-31-23.

### Notes to financial statements (unaudited)

#### Note 1 — Organization

John Hancock Exchange-Traded Fund Trust (the Trust) is an open-end management investment company organized as a Massachusetts business trust. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act). It is a series company with multiple investment series, five of which are presented in this report (the funds).

The investment objective of Corporate Bond ETF is to seek a high level of current income consistent with prudent investment risk.

The investment objective of Mortgage-Backed Securities ETF is to seek a high level of current income while seeking to outperform the benchmark over a market cycle.

The investment objective of Preferred Income ETF is to seek a high level of current income, consistent with preservation of capital.

The investment objective of International High Dividend ETF and U.S. High Dividend ETF is to seek a high level of current income. Long-term growth of capital is a secondary objective for each fund.

#### Note 2 — Significant accounting policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP), which require management to make certain estimates and assumptions as of the date of the financial statements. Actual results could differ from those estimates and those differences could be significant. The funds qualify as investment companies under Topic 946 of Accounting Standards Codification of US GAAP.

Events or transactions occurring after the end of the fiscal period through the date that the financial statements were issued have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the funds:

**Security valuation.** Investments are stated at value as of the scheduled close of regular trading on the New York Stock Exchange (NYSE), normally at 4:00 P.M., Eastern Time. In case of emergency or other disruption resulting in the NYSE not opening for trading or the NYSE closing at a time other than the regularly scheduled close, the net asset value (NAV) may be determined as of the regularly scheduled close of the NYSE pursuant to the Valuation Policies and Procedures of the Advisor, John Hancock Investment Management LLC.

In order to value the securities, the funds use the following valuation techniques: Debt obligations are typically valued based on evaluated prices provided by an independent pricing vendor. Independent pricing vendors utilize matrix pricing, which takes into account factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data, as well as broker supplied prices. Equity securities, including exchange-traded or closed-end funds, are typically valued at the last sale price or official closing price on the exchange or principal market where the security trades. In the event there were no sales during the day or closing prices are not available, the securities are valued using the last available bid price. Investments by the funds in open-end mutual funds, including John Hancock Collateral Trust (JHCT), are valued at their respective NAVs each business day. Futures contracts whose settlement prices are determined as of the close of the NYSE are typically valued based on the settlement price while other futures contracts are typically valued at the last traded price on the exchange on which they trade. Foreign securities and currencies are valued in U.S. dollars based on foreign currency exchange rates supplied by an independent pricing vendor valued at London close.

In certain instances, the Pricing Committee of the Advisor may determine to value equity securities using prices obtained from another exchange or market if trading on the exchange or market on which prices are typically obtained did not open for trading as scheduled, or if trading closed earlier than scheduled, and trading occurred as normal on another exchange or market.

Other portfolio securities and assets, for which reliable market quotations are not readily available, are valued at fair value as determined in good faith by the Pricing Committee following procedures established by the Advisor and adopted by the Board of Trustees. The frequency with which these fair valuation procedures are used cannot be predicted and fair value of securities may differ significantly from the value that would have been used had a ready market for such securities existed. Trading in foreign securities may be completed before the scheduled daily close of trading on the NYSE. Significant events at the issuer or market level may affect the values of securities between the time when the valuation of the securities is generally determined and the close of the NYSE. If a significant event occurs, these securities may be fair valued, as determined in good faith by the Pricing Committee, following procedures established by the Advisor and adopted by the Board of Trustees. The Advisor may use fair value adjustment factors provided by an independent pricing vendor to value certain foreign securities in order to adjust for events that may occur between the close of foreign exchanges or markets and the close of the NYSE.

The funds use a three tier hierarchy to prioritize the pricing assumptions, referred to as inputs, used in valuation techniques to measure fair value. Level 1 includes securities valued using quoted prices in active markets for identical securities, including registered investment companies. Level 2 includes securities valued using other significant observable inputs. Observable inputs may include quoted prices for similar securities, interest rates, prepayment speeds and credit risk. Prices for securities valued using these inputs are received from independent pricing vendors and brokers and are based on an evaluation of the inputs described. Level 3 includes securities valued using significant unobservable inputs when market prices are not readily available or reliable, including the Advisor's assumptions in determining the fair value of investments. Factors used in determining value may include market or issuer specific events or trends, changes in interest rates and credit quality. The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Changes in valuation techniques and related inputs may result in transfers into or out of an assigned level within the disclosure hierarchy.

The following is a summary of the values by input classification of the funds' investments as of October 31, 2023, by major security category or type:

	Total value at 10-31-23	Level 1 quoted price	Level 2 significant observable inputs	Level 3 significant unobservable inputs

Stripped securities. Stripped securities are financial instruments structured to separate principal and interest cash flows so that one class receives principal payments from the underlying assets (PO or principal only), while the other class receives the interest cash flows (IO or interest only). Both PO and IO investments represent an interest in the cash flows of an underlying stripped security. If the underlying assets experience greater than anticipated prepayments of principal, the funds may fail to fully recover its initial investment in an IO security. The market value of these securities can be extremely volatile in response to changes in interest rates or prepayments on the underlying securities. In addition, these securities present additional credit risk such that the funds may not receive all or part of its principal or interest payments because the borrower or issuer has defaulted on its obligation.

Mortgage and asset backed securities. The funds may invest in mortgage-related securities, such as mortgage-backed securities, and other asset-backed securities, which are debt obligations that represent interests in pools of mortgages or other income-bearing assets, such as consumer loans or receivables. Such securities often involve risks that are different from the risks associated with investing in other types of debt securities. Mortgage-backed and other asset-backed securities are subject to changes in the payment patterns of borrowers of the underlying debt. When interest rates fall, borrowers are more likely to refinance or prepay their debt before its stated maturity. This may result in the funds having to reinvest the proceeds in lower yielding securities, effectively reducing the funds' income. Conversely, if interest rates rise and borrowers repay their debt more slowly than expected, the time in which the mortgage-backed and other asset-backed securities are paid off could be extended, reducing the funds' cash available for reinvestment in higher yielding securities. The timely payment of principal and interest of certain mortgage-related securities is guaranteed with the full faith and credit of the U.S. Government. Pools created and guaranteed by non-governmental issuers, including government-sponsored corporations (e.g. FNMA), may be supported by various forms of insurance or guarantees, but there can be no assurance that private insurers or guarantors can meet their obligations under the insurance policies or guarantee arrangements. The funds are also subject to risks associated with securities with contractual cash flows including asset-backed and mortgage related securities such as collateralized mortgage obligations, mortgage pass-through securities and commercial mortgage-backed securities. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, pre-payments, delinquencies and/or defaults, and may be adversely

**Real estate investment trusts.** The funds may invest in real estate investment trusts (REITs). Distributions from REITs may be recorded as income and subsequently characterized by the REIT at the end of their fiscal year as a reduction of cost of investments and/or as a realized gain. As a result, the funds will estimate the components of distributions from these securities. Such estimates are revised when the actual components of the distributions are known.

Security transactions and related investment income. Investment security transactions are accounted for on a trade date plus one basis for daily NAV calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is accrued as earned. Interest income includes coupon interest and amortization/accretion of premiums/discounts on debt securities. Debt obligations may be placed in a non-accrual status and related interest income may be reduced by stopping current accruals and writing off interest receivable when the collection of all or a portion of interest has become doubtful. Dividend income is recorded on ex-date, except for dividends of certain foreign securities where the dividend may not be known until after the ex-date. In those cases, dividend income, net of withholding taxes, is recorded when the fund becomes aware of the dividends. Non-cash dividends, if any, are recorded at the fair market value of the securities received. Gains and losses on securities sold are determined on the basis of identified cost and may include proceeds from litigation.

**Foreign investing.** Assets, including investments, and liabilities denominated in foreign currencies are translated into U.S. dollar values each day at the prevailing exchange rate. Purchases and sales of securities, income and expenses are translated into U.S. dollars at the prevailing exchange rate on the date of the transaction. The effect of changes in foreign currency exchange rates on the value of securities is reflected as a component of the realized and unrealized gains (losses) on investments. Foreign investments are subject to a decline in the value of a foreign currency versus the U.S. dollar, which reduces the dollar value of securities denominated in that currency.

Funds that invest internationally generally carry more risk than funds that invest strictly in U.S. securities. Risks can result from differences in economic and political conditions, regulations, market practices (including higher transaction costs), accounting standards and other factors.

**Foreign taxes.** The funds may be subject to withholding tax on income, capital gains or repatriations imposed by certain countries, a portion of which may be recoverable. Foreign taxes are accrued based upon the funds' understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued based on gains realized by the funds as a result of certain foreign security sales. In certain circumstances, estimated taxes are accrued based on unrealized appreciation of such securities. Investment income is recorded net of foreign withholding taxes.

**Overdraft.** The funds may have the ability to borrow from banks for temporary or emergency purposes, including meeting redemption requests that otherwise might require the untimely sale of securities. Pursuant to the funds' custodian agreement, the custodian may loan money to the funds to make properly authorized payments. The funds are obligated to repay the custodian for any overdraft, including any related costs or expenses. The custodian may have a lien, security interest or security entitlement in any fund property that is not otherwise segregated or pledged, to the extent of any overdraft, and to the maximum extent permitted by law.

Line of credit. The funds and other affiliated funds have entered into a syndicated line of credit agreement with Citibank, N.A. as the administrative agent that enables them to participate in a \$1 billion unsecured committed line of credit. Excluding commitments designated for a certain fund and subject to the needs of all other affiliated funds, a fund can borrow up to an aggregate commitment amount of \$750 million, subject to asset coverage and other limitations as specified in the agreement.

A commitment fee payable at the end of each calendar quarter, based on the average daily unused portion of each line of credit, is charged to each participating fund based on a combination of fixed and asset-based allocations and is reflected in Other expenses on the Statements of operations. For the six months ended October 31, 2023, the funds had no borrowings under the line of credit.

Commitment fees for the six months ended October 31, 2023 were as follows:

Fund	Commitment fee
Corporate Bond ETF	\$2,053
International High Dividend ETF	2,022
Mortgage-Backed Securities ETF	2,058

Fund	Commitment fee
Preferred Income ETF	\$2,057
U.S. High Dividend ETF	2,023

Expenses. Within the John Hancock group of funds complex, expenses that are directly attributable to an individual fund are allocated to such fund. Expenses that are not readily attributable to a specific fund are allocated among all funds in an equitable manner, taking into consideration, among other things, the nature and type of expense and each fund's relative net assets. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known.

Federal income taxes. Each fund intends to continue to qualify as a regulated investment company by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is

For federal income tax purposes, as of April 30, 2023, certain funds have short-term and long-term capital loss carryforwards available to offset future net realized capital gains. These carryforwards do not expire. The following table details the capital loss carryforwards available as of April 30, 2023:

	No Expira	tion Date
Fund	Short Term	Long Term
Corporate Bond ETF	\$ 162,457	\$798,626
International High Dividend ETF	17,510	_
Mortgage-Backed Securities ETF	265,153	212,469
Preferred Income ETF	1,247,812	150,435
U.S. High Dividend ETF	102,022	3,773

Due to certain Internal Revenue Code rules, utilization of the capital loss carryforwards may be limited in future years.

As of April 30, 2023, the funds had no uncertain tax positions that would require financial statement recognition, derecognition or disclosure. The funds' federal tax returns are subject to examination by the Internal Revenue Service for a period of three years.

For federal income tax purposes, the costs of investments owned on October 31, 2023, including short-term investments, were as follows:

Fund	Aggregate cost	Unrealized appreciation	Unrealized (depreciation)	appreciation/ (depreciation)
Corporate Bond ETF	\$26,516,016	\$2,304	\$(3,712,151)	\$(3,709,847)
International High Dividend ETF	5,833,130	320,537	(403,213)	(82,676)
Mortgage-Backed Securities ETF	32,268,747	119,869	(4,837,871)	(4,718,002)
Preferred Income ETF	34,772,265	75,688	(3,626,449)	(3,550,761)
U.S. High Dividend ETF	6,501,038	601,041	(373,485)	227,556

Not uproalized

Distribution of income and gains. Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-date. International High Dividend ETF and U.S. High Dividend ETF generally declare and pay dividends from net investment income quarterly. All other funds generally declare and pay dividends from net investment income monthly. All funds generally declare and pay capital gain distributions, if any, annually.

Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from US GAAP. Distributions in excess of tax basis earnings and profits, if any, are reported in the funds' financial statements as a return of capital. The final determination of tax characteristics of the distribution will occur at the end of the year and will subsequently be reported to shareholders.

Capital accounts within the financial statements are adjusted for permanent book-tax differences. These adjustments have no impact on net assets or the results of operations. Temporary book-tax differences, if any, will reverse in a subsequent period. Book-tax differences are primarily attributable to redemptions-in-kind, amortization and accretion on debt securities, investments in passive foreign investment companies, wash sale loss deferrals, contingent payment debt instruments and derivative transactions.

#### Note 3 — Derivative instruments

The funds may invest in derivatives in order to meet their investment objective. Derivatives include a variety of different instruments that may be traded in the over-the-counter (OTC) market, on a regulated exchange or through a clearing facility. The risks in using derivatives vary depending upon the structure of the instruments, including the use of leverage, optionality, the liquidity or lack of liquidity of the contract, the creditworthiness of the counterparty or clearing organization and the volatility of the position. Some derivatives involve risks that are potentially greater than the risks associated with investing directly in the referenced securities or other referenced underlying instrument. Specifically, the funds are exposed to the risk that the counterparty to an OTC derivatives contract will be unable or unwilling to make timely settlement payments or otherwise honor its obligations. OTC derivatives transactions typically can only be closed out with the other party to the transaction.

Certain derivatives are traded or cleared on an exchange or central clearinghouse. Exchange-traded or centrally-cleared transactions generally present less counterparty risk to a fund than OTC transactions. The exchange or clearinghouse stands between the funds and the broker to the contract and therefore, credit risk is generally limited to the failure of the exchange or clearinghouse and the clearing member.

**Futures.** A futures contract is a contractual agreement to buy or sell a particular currency or financial instrument at a pre-determined price in the future. Futures are traded on an exchange and cleared through a central clearinghouse. Risks related to the use of futures contracts include possible illiquidity of the futures markets and contract prices that can be highly volatile and imperfectly correlated to movements in the underlying financial instrument and potential losses in excess of the amounts recognized on the Statements of assets and liabilities. Use of long futures contracts subjects the funds to the risk of loss up to the notional value of the futures contracts. Use of short futures contracts subjects the funds to unlimited risk of loss.

Upon entering into a futures contract, the fund is required to deposit initial margin with the broker in the form of cash or securities. The amount of required margin is set by the broker and is generally based on a percentage of the contract value. The margin deposit must then be maintained at the established level over the life of the contract. Cash that has been pledged by a fund, if any, is detailed in the Statements of assets and liabilities as Collateral held at broker for futures contracts. Securities pledged by the funds, if any, are identified in the Funds' investments. Subsequent payments, referred to as variation margin, are made or received by a fund periodically and are based on changes in the market value of open futures contracts. Futures contracts are marked-to-market daily and unrealized gain or loss is recorded by the fund. Receivable/Payable for futures variation margin is included in the Statements of assets and liabilities. When the contract is closed, a fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The following table details how the funds used futures contracts during the six months ended October 31, 2023. In addition, the table summarizes the range of notional contract amounts held by the funds, as measured at each quarter end:

Fund	Reason	USD Notional range
International High Dividend ETF	The fund used futures contracts to manage against changes in certain securities markets. At October 31, 2023, there were no open futures contracts.	Up to \$524,000
Mortgage-Backed Securities ETF	The fund used futures contracts to manage against changes in interest rates.	From \$1.0 million to \$1.3 million
U.S. High Dividend ETF	The fund used futures contracts to manage against changes in certain securities markets. At October 31, 2023, there were no open futures contracts.	Up to \$683,000

#### Fair value of derivative instruments by risk category

The table below summarizes the fair value of derivatives held by the funds at October 31, 2023 by risk category:

		Statements of	Financial	Assets	Liabilities
		assets and	instruments	derivatives	derivatives
Fund	Risk	liabilities location	location	fair value	fair value
Mortgage-Backed Securities ETF	Interest rate	Receivable/payable for futures variation margin <sup>1</sup>	Futures	_	\$(121,362)

Reflects cumulative appreciation/depreciation on open futures as disclosed in the Derivatives section of the Funds' investments. Only the period end variation margin receivable/payable is separately reported on the Statements of assets and liabilities.

#### Effect of derivative instruments on the Statements of operations

The table below summarizes the net realized gain (loss) included in the net increase (decrease) in net assets from operations, classified by derivative instrument and risk category, for the six months ended October 31, 2023:

#### Statements of operations location - Net realized gain (loss) on:

Fund	Risk	Futures contracts
International High Dividend ETF	Equity	\$ 5,941
Mortgage-Backed Securities ETF	Interest rate	\$(50,258)
U.S. High Dividend ETF	Equity	\$ 4,877

The table below summarizes the net change in unrealized appreciation (depreciation) included in the net increase (decrease) in net assets from operations, classified by derivative instrument and risk category, for the six months ended October 31, 2023:

		Statements of operations location - Change in net unrealized appreciation (depreciation) of:
Fund	Risk	Futures contracts
Mortgage-Backed Securities ETF	Interest rate	\$(173,225)

#### Note 4 — Guarantees and indemnifications

Under the Trust's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust, including the funds. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred. The risk of material loss from such claims is considered remote.

#### Note 5 — Fees and transactions with affiliates

John Hancock Investment Management LLC (the Advisor) serves as investment advisor for the funds. The Advisor is an indirect, principally owned subsidiary of John Hancock Life Insurance Company (U.S.A.), which in turn is a subsidiary of Manulife Financial Corporation (MFC).

Management fee. The funds have an investment management agreement with the Advisor under which each fund pays a monthly management fee to the Advisor equivalent on an annual basis as detailed below. The Advisor has a subadvisory agreement with Manulife Investment Management (US) LLC, an indirectly owned subsidiary of MFC and an affiliate of the Advisor. The funds are not responsible for payment of the subadvisory fees.

Fund	Average daily net assets
Corporate Bond ETF	0.24%
International High Dividend ETF	0.39%
Mortgage-Backed Securities ETF	0.34%

Average daily net assets
0.49%
0.29%

The Advisor has contractually agreed to waive a portion of its management fee and/or reimburse expenses for certain funds of the John Hancock group of funds complex, including the funds (the participating portfolios). This waiver is based upon aggregate net assets of all the participating portfolios. The amount of the reimbursement is calculated daily and allocated among all the participating portfolios in proportion to the daily net assets of the funds. During the six months ended October 31, 2023, this waiver amounted to 0.01% of the funds' average daily net assets, on an annualized basis. This arrangement expires on July 31, 2025, unless renewed by mutual agreement of the funds and the Advisor based upon a determination that this is appropriate under the circumstances at that time.

The Advisor contractually agrees to reduce its management fee or, if necessary, make a payment to Corporate Bond ETF, International High Dividend ETF, Mortgage-Backed Securities ETF, Preferred Income ETF and U.S. High Dividend ETF in an amount equal to the amount by which expenses of the funds exceed 0.29%, 0.46%, 0.39%, 0.54% and 0.34%, respectively, of average daily net assets. Expenses means all the expenses of the funds, excluding (a) taxes, (b) brokerage commissions, (c) interest expense, (d) litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the funds' business, (e) borrowing costs, (f) prime brokerage fees, (g) acquired fund fees and expenses paid indirectly, and (h) short dividend expense. This agreement expires on August 31, 2024 for all funds, unless renewed by mutual agreement of the funds and the Advisor based upon a determination that this is appropriate under the circumstances at that time.

The expense reductions described above amount to the following for the six months ended October 31, 2023.

Fund	Expense reimbursement
Corporate Bond ETF	\$72,628
International High Dividend ETF	53,806
Mortgage-Backed Securities ETF	70,039

Fund	Expense reimbursement
Preferred Income ETF	\$68,186
U.S. High Dividend ETF	55,445

Expenses waived or reimbursed in the current fiscal period are not subject to recapture in future fiscal periods.

The investment management fees, including the impact of the waivers and reimbursements as described above, incurred for the six months ended October 31, 2023, were equivalent to a net annual effective rate of the funds' average daily net assets:

Fund	Net Annual Effective Rate
Corporate Bond ETF	0.00%
International High Dividend ETF	0.00%
Mortgage-Backed Securities ETF	0.00%

Fund	Net Annual Effective Rate
Preferred Income ETF	0.02%
U.S. High Dividend ETF	0.00%

Accounting and legal services. Pursuant to a service agreement, the funds reimburse the Advisor for all expenses associated with providing the administrative, financial, legal, compliance, accounting and recordkeeping services to the funds, including the preparation of all tax returns, periodic reports to shareholders and regulatory reports, among other services. These accounting and legal services fees incurred, for the six months ended October 31, 2023, amounted to an annual rate of 0.02% of the funds' average daily net assets.

Trustee expenses. The funds compensate each Trustee who is not an employee of the Advisor or its affiliates. The costs of paying Trustee compensation and expenses are allocated to each fund based on their net assets relative to other funds within the John Hancock group of funds complex.

#### Note 6 — Capital share transactions

The funds will issue and redeem shares only in a large number of specified shares, each called a "creation unit," or multiples thereof. The funds issue and redeem shares at NAV in creation units of 50,000, 10,000, 25,000, 25,000 and 10,000 shares for Corporate Bond ETF, International High Dividend ETF, Mortgage-Backed Securities ETF, Preferred Income ETF and U.S. High Dividend ETF, respectively.

Only authorized participants may engage in creation or redemption transactions directly with the funds. Such transactions generally take place when an authorized participant deposits into a fund a designated portfolio of securities and/or cash in exchange for a specified number of creation units. Similarly, shares can be redeemed only in creation units, generally for a designated portfolio of securities and/or cash. For purposes of US GAAP, in-kind redemption transactions are treated as a sale of securities and any resulting gains and losses are recognized based on the market value of the securities on the date of the transfer. Authorized participants pay a transaction fee to the custodian when purchasing and redeeming creation units of the funds. The transaction fee is used to defray the costs associated with the issuance and redemption of creation units. Individual shares of the funds may only be purchased and sold in secondary market transactions through brokers. Secondary market transactions may be subject to brokerage commissions. Shares of the funds are listed and traded on the NYSE Arca, Inc., trade at market prices rather than NAV, and may trade at a price greater than or less than NAV.

Authorized participants transacting in creation or redemption of units for cash may also pay an additional variable charge to compensate the relevant fund for the costs associated with purchasing or selling the applicable securities. For the six months ended October 31, 2023, such variable charges were \$3,188 and \$20,938 for Mortgage-Backed Securities ETF and Preferred Income ETF, respectively. These charges are included in shares issued or repurchased on the Statements of Changes in Net Assets.

Affiliates of Corporate Bond ETF, International High Dividend ETF, Mortgage-Backed Securities ETF, Preferred Income ETF and U.S. High Dividend ETF owned 58%, 83%, 49%, 27% and 76%, respectively, of shares of the fund on October 31, 2023. Such concentration of shareholders' capital could have a material effect on a fund if such shareholders redeem from the fund.

#### Note 7 — Purchase and sale of securities

Purchases and sales of securities, other than short-term investments, are aggregated below for the six months ended October 31, 2023. In addition, purchases and sales of in-kind transactions are aggregated below for the six months ended October 31, 2023:

	Pι	ırchases	Sales and maturities	
Fund	In-kind transactions	Non in-kind transactions	In-kind transactions	Non in-kind transactions
Corporate Bond ETF	\$956,116	\$5,841,740	_	\$6,244,116
International High Dividend ETF	_	1,252,215	\$623,847	616,856
Mortgage-Backed Securities ETF	_	5,866,117	_	2,985,759
Preferred Income ETF	_	11,700,162	_	2,956,983
U.S. High Dividend ETF	276,513	1,978,092	1,163,695	848,353

#### Note 8 — Industry or sector risk

The funds may invest a large percentage of their assets in one or more particular industries or sectors of the economy. If a large percentage of a fund's assets are economically tied to a single or small number of industries or sectors of the economy, the fund will be less diversified than a more broadly diversified fund, and it may cause the fund to underperform if that industry or sector underperforms. In addition, focusing on a particular industry or sector may make the fund's NAV more volatile. Further, a fund that invests in particular industries or sectors is particularly susceptible to the impact of market, economic, regulatory and other factors affecting those industries or sectors. Financial services companies can be hurt by economic declines, changes in interest rates, and regulatory and market impacts.

#### Note 9 — Investment in affiliated underlying funds

The funds may invest in affiliated underlying funds that are managed by the Advisor and its affiliates. Information regarding the funds' fiscal year to date purchases and sales of the affiliated underlying funds as well as income and capital gains earned by the funds, if any, is as follows:

							Dividends and d	istributions	al gain outions Ending
Affiliate	Ending share amount	Beginning value	Cost of purchases	Proceeds from shares sold	Realized gain (loss)	Change in unrealized appreciation (depreciation)	Income distributions received	Capital gain distributions received

#### Note 10 — LIBOR discontinuation risk

Certain debt securities, derivatives and other financial instruments have traditionally utilized LIBOR as the reference or benchmark rate for interest rate calculations. However, following allegations of manipulation and concerns regarding liquidity, the U.K. Financial Conduct Authority (UK FCA) announced that LIBOR would be discontinued as of June 30, 2023. The UK FCA elected to require the ICE Benchmark Administration Limited, the administrator of LIBOR, to continue publishing a subset of British pound sterling and U.S. dollar LIBOR settings on a "synthetic" basis. The synthetic publication of the three-month sterling LIBOR will continue until March 31, 2024, and the publication of the one-, three and six-month U.S. dollar LIBOR will continue until September 30, 2024.

Although the transition process away from LIBOR has become increasingly well-defined in advance of the discontinuation dates, the impact on certain debt securities, derivatives and other financial instruments remains uncertain. Market participants have adopted alternative rates such as Secured Overnight Financing Rate (SOFR) or otherwise amended financial instruments referencing LIBOR to include fallback provisions and other measures that contemplated the discontinuation of LIBOR or other similar market disruption events, but neither the effect of the transition process nor the viability of such measures is known. To facilitate the transition of legacy derivatives contracts referencing LIBOR, the International Swaps and Derivatives Association, Inc. launched a protocol to incorporate fallback provisions. However, there are obstacles to converting certain longer term securities and transactions to a new benchmark or benchmarks and the effectiveness of one alternative reference rate versus multiple alternative reference rates in new or existing financial instruments and products has not been determined. Certain proposed replacement rates to LIBOR, such as SOFR, which is a broad measure of secured overnight U.S. Treasury repo rates, are materially different from LIBOR, and changes in the applicable spread for financial instruments transitioning away from LIBOR will need to be made to accommodate the differences.

The utilization of an alternative reference rate, or the transition process to an alternative reference rate, may adversely affect the fund's performance.

#### Note 11 — New accounting pronouncement

In March 2020, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU), ASU 2020-04, Reference Rate Reform (Topic 848), which provides optional, temporary relief with respect to the financial reporting of contracts subject to certain types of modifications due to the discontinuation of the LIBOR and other IBOR-based reference rates as of the end of 2021. In January 2021 and December 2022, the FASB issued ASU No. 2021-01 and ASU No. 2022-06, with further amendments to Topic 848. The temporary relief provided by ASU 2020-04 is effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2024. Management expects that the adoption of the guidance will not have a material impact to the financial statements.

#### **EVALUATION OF ADVISORY AND SUBADVISORY AGREEMENTS BY THE BOARD OF TRUSTEES**

This section describes the evaluation by the Board of Trustees (the Board) of John Hancock Exchange-Traded Fund Trust (the Trust) of the Advisory Agreement (the Advisory Agreement) with John Hancock Investment Management LLC (the Advisor) and the Subadvisory Agreement (the Subadvisory Agreement) with Manulife Investment Management (US) LLC (the Subadvisor) with respect to each of the portfolios of the Trust included in this report (the Funds). The Advisory Agreement and Subadvisory Agreement are collectively referred to as the Agreements. Prior to the June 26-29, 2023 meeting at which the Agreements were approved, the Board also discussed and considered information regarding the proposed continuation of the Agreements at a meeting held on May 30-June 1, 2023. The Trustees who are not "interested persons" of the Trust as defined by the Investment Company Act of 1940, as amended (the "1940 Act") (the Independent Trustees) also met separately to evaluate and discuss the information presented, including with counsel to the Independent Trustees and a third-party consulting firm.

#### **Approval of Advisory and Subadvisory Agreements**

At a meeting held on June 26-29, 2023, the Board, including the Trustees who are not parties to any Agreement or considered to be interested persons of the Trust under the 1940 Act, reapproved for an annual period the continuation of the Advisory Agreement between the Trust and the Advisor and the Subadvisory Agreement between the Advisor and the Subadvisor with respect to each of the Funds identified in Appendix A.

In considering the Advisory Agreement and the Subadvisory Agreement with respect to each Fund, the Board received in advance of the meetings a variety of materials relating to each Fund, the Advisor and the Subadvisor, including comparative performance, fee and expense information for peer groups of similar funds prepared by an independent third-party provider of fund data; performance information for the Funds' benchmark indices; and, with respect to the Subadvisor, comparative performance information for comparably managed accounts, as applicable; and other information provided by the Advisor and the Subadvisor regarding the nature, extent and quality of services provided by the Advisor and the Subadvisor under their respective Agreements, as well as information regarding the Advisor's revenues and costs of providing services to the Funds and any compensation paid to affiliates of the Advisor. At the meetings at which the renewal of the Advisory Agreement and Subadvisory Agreement is considered, particular focus is given to information concerning Fund performance, comparability of fees and total expenses, and profitability. However, the Board noted that the evaluation process with respect to the Advisor and the Subadvisor is an ongoing one. In this regard, the Board also took into account discussions with management and information provided to the Board (including its various committees) at prior meetings with respect to the services provided by the Advisor and the Subadvisor to the Funds, including quarterly performance reports prepared by management containing reviews of investment results and prior presentations from the Subadvisor with respect to the Funds it manages. The information received and considered by the Board in connection with the May and June meetings and throughout the year was both written and oral. The Board noted the affiliation of the Subadvisor with the Advisor, noting any potential conflicts of interest. The Board also considered the nature, quality, and extent of the non-advisory services, if any, to be provided to the Funds by the Advisor and/or its affiliates, including administrative services. The Board considered the Advisory Agreement and the Subadvisory Agreement separately in the course of its review. In doing so, the Board noted the respective roles of the Advisor and Subadvisor in providing services to the Funds. In addition, although the Board approved the renewal of the Agreements for all the Funds at the June meeting, the Board considered each Fund separately.

Throughout the process, the Board asked questions of and requested additional information from management. The Board is assisted by counsel for the Trust and the Independent Trustees are also separately assisted by independent legal counsel throughout the process. The Independent Trustees also received a memorandum from their independent legal counsel discussing the legal standards for their consideration of the proposed continuation of the Agreements and discussed the proposed continuation of the Agreements in private sessions with their independent legal counsel at which no representatives of management were present.

#### Approval of Advisory Agreement

In approving the Advisory Agreement with respect to each Fund, the Board, including the Independent Trustees, considered a variety of factors, including those discussed below. The Board also considered other factors (including conditions and trends prevailing generally in the economy, the securities markets and the industry) and did not treat any single factor as determinative, and each Trustee may have attributed different weights to different factors. The Board's conclusions may be based in part on its consideration of the advisory and subadvisory arrangements in prior years and on the Board's ongoing regular review of Fund performance and operations throughout the year.

Nature, extent and quality of services. Among the information received by the Board from the Advisor relating to the nature, extent, and quality of services provided to the Funds, the Board reviewed information provided by the Advisor relating to its operations and personnel, descriptions of its organizational and management structure, and information regarding the Advisor's compliance and regulatory history, including its Form ADV. The Board also noted that on a regular basis it receives and reviews information from the Trust's Chief Compliance Officer (CCO) regarding the Funds' compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act. The Board observed that the scope of services provided by the Advisor, and of the undertakings required of the Advisor in connection with those services, including maintaining and monitoring its own and the fund's compliance programs, risk management programs, liquidity management programs, derivatives risk management programs, and cybersecurity programs, had expanded over time as a result of regulatory, market and other developments. The Board considered that the Advisor is responsible for the management of the day-to-day operations of the Funds, including, but not limited to, general supervision of and coordination of the services provided by the Subadvisor, and is also responsible for monitoring and reviewing the activities of the Subadvisor and third-party service providers, including the Funds' distributor. The Board also considered the significant risks assumed by the Advisor in connection with the services provided to the Funds including entrepreneurial risk in sponsoring new Funds and ongoing risks including investment, operational, enterprise, litigation, regulatory and compliance risks with respect to all Funds.

In considering the nature, extent, and quality of the services provided by the Advisor, the Trustees also took into account their knowledge of the Advisor's management and the quality of the performance of the Advisor's duties, through Board meetings, discussions and reports during the preceding year and through each Trustee's experience as a Trustee of the Trust and of the other trusts in the John Hancock group of funds complex (the John Hancock Fund Complex).

In the course of their deliberations regarding the Advisory Agreement, the Board considered, among other things:

- the skills and competency with which the Advisor has in the past managed the Trust's affairs and its subadvisory relationships, the Advisor's oversight and monitoring of the Subadvisor's investment performance and compliance programs, such as the Subadvisor's compliance with fund policies and objectives, review of brokerage matters, including with respect to trade allocation and best execution, and the Advisor's timeliness in responding to performance issues:
- (b) the background, qualifications and skills of the Advisor's personnel;
- the Advisor's compliance policies and procedures and its responsiveness to regulatory changes and fund industry developments;
- the Advisor's administrative capabilities, including its ability to supervise the other service providers for the Funds, as well as the Advisor's oversight of any securities lending activity, its monitoring of class action litigation and collection of class action settlements on behalf of the Funds, and bringing loss recovery actions on behalf of the Funds;
- the financial condition of the Advisor and whether it has the financial wherewithal to provide a high level and quality of services to the Funds;
- the Advisor's initiatives intended to improve various aspects of the Trust's operations and investor experience with the Funds; and (f)
- the Advisor's reputation and experience in serving as an investment adviser to the Trust and the benefit to shareholders of investing in funds that are part of a family of funds offering a variety of investments.

The Board concluded that the Advisor may reasonably be expected to continue to provide a high quality of services under the Advisory Agreement with respect to the

Investment performance. In considering each Fund's performance, the Board noted that it reviews at its regularly scheduled meetings information about the Funds' performance results. In connection with the consideration of the Advisory Agreement, the Board:

- reviewed information prepared by management regarding the Funds' performance;
- (b) considered the comparative performance of each Fund's respective benchmark index;
- considered the performance of comparable funds, if any, as included in the report prepared by an independent third-party provider of fund data; and (c)
- took into account the Advisor's analysis of each Fund's performance and its plans and recommendations regarding the Trust's subadvisory arrangements (d) generally and with respect to particular Funds.

The Board noted that while it found the data provided by the independent third-party generally useful it recognized its limitations, including in particular that the data may vary depending on the end date selected and the results of the performance comparisons may vary depending on the selection of the peer group. The Board reviewed Fund performance against each Fund's respective benchmark and concluded that the performance of the Funds has generally been in line with or generally outperformed the historical performance of comparable funds based on the median percentile and/or each Fund's respective benchmark or is being monitored and reasonably addressed, where appropriate as noted in Appendix A.

Fees and expenses. The Board reviewed comparative information prepared by an independent third-party provider of fund data, including, among other data, each Fund's contractual and net management fees (and subadvisory fees, to the extent available) and total expenses as compared to similarly situated investment companies deemed to be comparable to the Fund in light of the nature, extent and quality of the management and advisory and subadvisory services provided by the Advisor and the Subadvisor. The Board considered each Fund's ranking within a smaller group of peer funds chosen by the independent third-party provider, as well as the Fund's ranking within broader groups of funds. In comparing each Fund's contractual and net management fees to that of comparable funds, the Board noted that such fees include both advisory and administrative costs.

The Board took into account management's discussion of the Funds' expenses, including previous actions taken to reduce management fees for certain of the Funds. The Board also took into account management's discussion with respect to the overall management fee and the fees of the Subadvisor, including the amount of the advisory fee retained by the Advisor after payment of the subadvisory fee, in each case in light of the services rendered for those amounts and the risks undertaken by the Advisor. The Board also noted that the Advisor pays the subadvisory fees of the Funds. The Board also took into account that management had agreed to implement an overall fee waiver across the complex, including each of the Funds, which is discussed further below. The Board also noted management's discussion of the Funds' expenses, as well as any actions taken over the past several years to reduce the Funds' operating expenses. The Board also noted that, in addition, the Advisor is currently waiving fees and/or reimbursing expenses with respect to each Fund. The Board also took into account that management has approved the implementation of breakpoints in each Fund's subadvisory fee schedule. The Board reviewed information provided by the Advisor concerning the investment advisory fees charged by the Advisor or one of its advisory affiliates to other clients (including other funds in the John Hancock Fund Complex) having similar investment mandates, if any. The Board considered any differences between the Advisor's and Subadvisor's services to a Fund and the services they provide to other comparable clients or funds. The Board concluded that the advisory fee paid with respect to each of the Funds is reasonable in light of the nature, extent and quality of the services provided to the Funds under the Advisory Agreement.

Profitability/Fall out benefits. In considering the costs of the services to be provided and the profits to be realized by the Advisor and its affiliates from the Advisor's relationship with the Trust, the Board:

- (a) reviewed financial information of the Advisor:
- (b) reviewed and considered information presented by the Advisor regarding the net profitability to the Advisor and its affiliates with respect to each Fund;

- (c) received and reviewed profitability information with respect to the John Hancock Fund Complex as a whole and with respect to each Fund;
- (d) received information with respect to the Advisor's allocation methodologies used in preparing the profitability data and considered that the Advisor hired an independent third-party consultant to provide an analysis of the Advisor's allocation methodologies;
- (e) considered that the John Hancock insurance companies that are affiliates of the Advisor, as shareholders of the Trust directly or through their separate accounts, receive certain tax credits or deductions relating to foreign taxes paid and dividends received by certain Funds of the Trust and noted that these tax benefits, which are not available to participants in qualified retirement plans under applicable income tax law, are reflected in the profitability analysis reviewed by the Board;
- (f) considered that the Advisor also provides administrative services to the Funds on a cost basis pursuant to an administrative services agreement;
- (g) noted that the fund's Subadvisor is an affiliate of the Advisor;
- (h) noted that the Advisor also derives reputational and other indirect benefits from providing advisory services to the Funds;
- (i) noted that the subadvisory fee is paid by the Advisor;
- (j) noted that the Advisor also pays the Subadvisor a license fee in connection with each Fund's use of its Underlying Index;
- (k) considered the Advisor's ongoing costs and expenditures necessary to improve services, meet new regulatory and compliance requirements, and adapt to other challenges impacting the fund industry; and
- (l) considered that the Advisor should be entitled to earn a reasonable level of profits in exchange for the level of services it provides to each Fund and the risks that it assumes as Advisor, including entrepreneurial, operational, reputational, litigation and regulatory risk.

Based upon its review, the Board concluded that the level of profitability, if any, of the Advisor and its affiliates from their relationship with each Fund was reasonable and not excessive.

<u>Economies of scale</u>. In considering the extent to which a Fund may realize any economies of scale and whether fee levels reflect these economies of scale for the benefit of Fund shareholders, the Board:

- (a) considered that the Advisor has contractually agreed to waive a portion of its management fee for certain funds of the John Hancock Fund Complex, including the Funds (the participating portfolios) or otherwise reimburse the expenses of the participating portfolios (the reimbursement). This waiver is based upon aggregate net assets of all the participating portfolios. The amount of the reimbursement is calculated daily and allocated among all the participating portfolios in proportion to the daily net assets of each Fund;
- (b) the Board also took into account management's discussion of each Fund's advisory fee structure; and
- (c) considered the effect of the Funds' growth in size on their performance and fees. The Board also noted that if the Funds' assets increase over time, the Funds may realize other economies of scale.

#### Approval of Subadvisory Agreement

In making its determination with respect to approval of the Subadvisory Agreement, the Board reviewed:

- (1) information relating to the Subadvisor's business, including current subadvisory services to the Trust (and other funds in the John Hancock Fund Complex);
- (2) the historical and current performance of each Fund and comparative performance information relating to the Fund's benchmark and comparable funds; and
- (3) the subadvisory fee for each Fund, including the approved breakpoints for each of the Funds and to the extent available, comparable fee information prepared by an independent third-party provider of fund data.

Nature, extent, and quality of services. With respect to the services provided by the Subadvisor with respect to each Fund, the Board received information provided to the Board by the Subadvisor, including the Subadvisor's Form ADV, as well as took into account information presented throughout the past year. The Board considered the Subadvisor's current level of staffing and its overall resources, as well as received information relating to the Subadvisor's compensation program. The Board reviewed the Subadvisor's history and investment experience, as well as information regarding the qualifications, background, and responsibilities of the Subadvisor's investment and compliance personnel who provide services to the Funds. The Board also considered, among other things, the Subadvisor's compliance program and any disciplinary history. The Board also considered the Subadvisor's risk assessment and monitoring process. The Board reviewed the Subadvisor's regulatory history, including whether it was involved in any regulatory actions or investigations as well as material litigation, and any settlements and amelioratory actions undertaken, as appropriate. The Board noted that the Advisor conducts regular, periodic reviews of the Subadvisor and its operations, including regarding investment processes and organizational and staffing matters. The Board also noted that the Trust's CCO and his staff conduct regular, periodic compliance reviews with the Subadvisor and present reports to the Independent Trustees regarding the same, which includes evaluating the regulatory compliance systems of the Subadvisor and procedures reasonably designed to assure compliance with the federal securities laws. The Board also took into account the financial condition of the Subadvisor.

The Board considered the Subadvisor's investment process and philosophy. The Board took into account that the Subadvisor's responsibilities include the development and maintenance of an investment program for each Fund that is consistent with the Fund's investment objective, the selection of investment securities and the placement of orders for the purchase and sale of such securities, as well as the implementation of compliance controls related to performance of these services. The Board also received information with respect to the Subadvisor's brokerage policies and practices, including with respect to best execution and soft dollars.

Subadvisor compensation. In considering the cost of services to be provided by the Subadvisor and the profitability to the Subadvisor of its relationship with each Fund, the Board noted that the fees under the Subadvisory Agreement are paid by the Advisor and not the Funds.

The Board also received information and took into account any other potential conflicts of interest the Advisor might have in connection with the Subadvisory Agreement.

In addition, the Board considered other potential indirect benefits that the Subadvisor and its affiliates may receive from the Subadvisor's relationship with the Funds, such as the opportunity to provide advisory services to additional funds in the John Hancock Fund Complex and reputational benefits.

Subadvisory fees. The Board considered that the Fund pays an advisory fee to the Advisor and that, in turn, the Advisor pays subadvisory fees to the Subadvisor. As noted above, the Board also considered each Fund's subadvisory fees as compared to similarly situated investment companies deemed to be comparable to the Funds as included in the report prepared by the independent third-party provider of fund data, to the extent available. The Board noted that the limited size of the Lipper peer groups were not sufficient for comparative purposes. The Board also took into account the subadvisory fees paid by the Advisor to the Subadvisor with respect to the Funds to fees charged by each Fund's Subadvisor to manage other subadvised portfolios and portfolios not subject to regulation under the 1940 Act, as applicable.

Subadvisor performance. As noted above, the Board considered each Fund's performance as compared to the Fund's respective peer group median and the benchmark index and noted that the Board reviews information about the Fund's performance results at its regularly scheduled meetings. The Board noted the Advisor's expertise and resources in monitoring the performance, investment style, and risk-adjusted performance of the Subadvisor. The Board was mindful of the Advisor's focus on the Subadvisor's performance. The Board also noted the Subadvisor's long-term performance record for similar accounts, as applicable.

The Board's decision to approve the Subadvisory Agreement with respect to each Fund was based on a number of determinations, including the following:

- (1) the Subadvisor has extensive experience and demonstrated skills as a manager;
- the performance of the Funds have generally been in line with or generally outperformed the historical performance of comparable funds, based on the median percentile, and/or each Fund's respective benchmark or is being monitored and reasonably addressed, where appropriate as noted in Appendix A;
- the subadvisory fees are reasonable in relation to the level and quality of services being provided under the Subadvisory Agreement; and (3)
- that the subadvisory fees are paid by the Advisor and not the Funds and the Board has approved the implementation of breakpoints to each of the Fund's subadvisory fee schedule.

Additional information relating to each Fund's fees and expenses and performance that the Board considered in approving the Advisory Agreement and Subadvisory Agreement for a particular Fund is set forth in Appendix A.

Based on the Board's evaluation of all factors that the Board deemed to be material, including those factors described above, and assisted by the advice of independent legal counsel, the Board, including the Independent Trustees, concluded that renewal of the Advisory Agreement and the Subadvisory Agreement with respect to each Fund would be in the best interest of each of the respective Funds and its shareholders. Accordingly, the Board, and the Independent Trustees voting separately, approved the Advisory Agreement and Subadvisory Agreement with respect to each Fund for an additional one-year period.

### **APPENDIX A**

Portfolio (subadvisors)	Performance of fund, as of 12.31.2022	Fees and expenses	Comments
Corporate Bond ETF (Manulife Investment Management (US) LLC)	Benchmark Index — The fund underperformed for the one-year period and for the period since March 31, 2021.  Morningstar Category — The fund underperformed the peer group median for the one-year period and for the period since March 31, 2021.	Subadvisor fee comparative data not provided due to limited size of Lipper peer group for this purpose.  Net management fees for this fund are lower than the peer group median.  Net total expenses for this fund are lower than the peer group median.	The Board took into account management's discussion of the factors that contributed to the fund's performance relative to the benchmark index and relative to the peer group median for the one-year period and for the period since March 31, 2021, including the impact of past and current market conditions on the fund's strategy and management's outlook for the fund.  The Board also noted the relatively limited performance history of the fund.
Mortgage-Backed Securities ETF (Manulife Investment Management (US) LLC)	Benchmark Index - The fund outperformed for the one-year period and for the period since August 31, 2021.  Morningstar Category - The fund outperformed the peer group median for the one-year period and for the period since August 31, 2021.	Subadvisor fee comparative data not provided due to limited size of Lipper peer group for this purpose.  Net management fees for this fund are lower than the peer group median.  Net total expenses for this fund are higher than the peer group median.	The Board took into account management's discussion of the fund's performance, including the favorable performance relative to the benchmark index and to the peer group median for the one-year period and for the period since August 31, 2021.  The Board also noted the relatively limited performance history of the fund.  The Board took into account management's discussion of the fund's expenses.
Preferred Income ETF (Manulife Investment Management (US) LLC)	Benchmark Index - The fund outperformed for the one-year period.  Morningstar Category - The fund outperformed the peer group median for the one-year period.	Subadvisor fee comparative data not provided due to limited size of Lipper peer group for this purpose.  Net management fees for this fund are lower than the peer group median.  Net total expenses for this fund are lower than the peer group median.	The Board took into account management's discussion of the fund's performance, including the favorable performance relative to the benchmark index and to the peer group median for the one-year period.  The Board also noted the relatively limited performance history of the fund.
