You should not draw any conclusions about the Fund’s investment performance from the amount of this distribution or from the terms of the Fund’s managed distribution plan.

The Fund estimates that it has distributed more than its income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with “yield” or “income.”

The amounts and sources of distributions reported in this Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund’s investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

¹ The Fund’s current fiscal year began on May 26, 2011.

The Fund has declared this distribution pursuant to the Fund's managed distribution plan (the "Plan"). Under the Plan, the Fund makes quarterly distributions of an amount equal to 1.8125% of the Fund's NAV as of each measuring date, based upon an annual rate of 7.25% as of such measuring dates. The amount of this initial distribution is based on the Fund's initial public offering price of \$20.00. The amount of the subsequent quarterly distributions declared under the Plan will be based on the NAV of the Fund at the close of the New York Stock Exchange on the last business day of the month ending two months prior to each quarterly declaration date.
