Ex Date: September 12, 2012  
Record Date: September 14, 2012

Ticker	Fund Name	Distribution Per Share	Change From Distribution Paid In Previous Quarter	Market Price as of 8/31/2012	Annualized Current Distribution Rate at Market
JHI	Investors Trust	\$0.4744	\$0.0100	\$24.40	7.78%

A portion of a Fund's current distribution may include sources other than net investment income, including a return of capital. Investors should understand that a return of capital is not a distribution from income or gains of a Fund. As required under the Investment Company Act of 1940, a notice with the estimated components of the distribution will be mailed to shareholders at the time of payment if it does not consist solely of net investment income. At this time, one or more of the Funds anticipates that the notice accompanying the current distribution will include an estimate of return of capital. Such notice will also be posted to the Funds' website at [www.jhfunds.com](http://www.jhfunds.com). The notice should not be used to prepare tax returns as the estimates indicated in the notice may differ from the ultimate federal income tax characterization of distributions. After the end of each calendar year, investors will be sent a Form 1099-DIV informing them how to report distributions received during that year for federal income tax purposes.

You should exercise caution in interpreting and relying on forward-looking statements because they are subject to uncertainties and other factors which are, in some cases, beyond the Fund's control and could cause actual results to differ materially from those set forth in the forward-looking statements.*

*An investor should consider a Fund's investment objectives, risks, charges and expenses carefully before investing.*
