You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's managed distribution plan.

The Fund estimates that it has distributed more than its income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income."

The amounts and sources of distributions reported in this Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

The Fund has declared this distribution pursuant to the Fund's managed distribution plan (the "Plan"). Under the amended Plan, the Fund will make a quarterly distribution of an amount equal to \$0.3230 per share, based upon an annual distribution rate of 7.25% of the Fund's net asset value ("NAV") of \$17.82 on July 31, 2012 (representing a quarterly distribution rate of 1.8125% of the Fund's July 31, 2012 NAV). The amount will be paid quarterly until further notice.
