

Important disclosure for pre-inception performance

The past performance shown reflects reinvested distributions and the beneficial effect of any expense reductions, and does not guarantee future results. Returns for periods shorter than one year are cumulative. Shares will fluctuate in value and, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance cited. For the most recent month-end performance, visit jhinvestments.com/etf.

Each John Hancock Dimensional index was developed, and the methodology underlying the construction of the index is maintained, by Dimensional Fund Advisors LP (Dimensional). Dimensional has entered into a calculation agent agreement with NYSE Arca, Inc., pursuant to which NYSE Arca, Inc. or its affiliates (NYSE) to calculate and disseminate information about the market value of the John Hancock Dimensional indexes used by the John Hancock Multifactor ETFs, except for the John Hancock Dimensional Developed International Index (Developed International Index). Dimensional has entered into a calculation agent agreement with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) (S&P) pursuant to which S&P Opco, LLC calculates and disseminates information about the market value of the Developed International Index. Backtested gross returns data (unadjusted for a fund's fees and expenses) is produced by NYSE or S&P. Dimensional pays NYSE or S&P for its services as calculation agent. The backtested data results are based on criteria applied retroactively with the benefit of hindsight and knowledge of factors that may have positively affected performance, and cannot account for all financial risk that might have or may in the future affect the actual performance of the index or fund. Actual performance of the index or fund may vary significantly from the backtested performance data. The backtested data could have differed from actual performance during the period prior to the index inception due to differences in the underlying data used in the calculation of the index or differing assumptions regarding costs, liquidity, or other market factors. In addition, certain elements of the existing index methodology (including, among others, the timing of index reconstitutions and the process for replacing index components to give effect to certain corporate actions that occurred between reconstitution dates and, for the John Hancock Dimensional Financials Index, the reduction of the company cap from 6% to 4% in connection with index reconstitution and the addition of an ongoing company cap of 4.75%) from the methodology used to calculate the pre-inception index performance. As a result, the backtested performance shown differs from the performance that would be calculated using the current index methodology. Index returns shown do not represent the results of the actual trading of investable assets. To obtain the index rulebook, please contact John Hancock Investments at 800-225-6020 or visit www.us.dimensional.com/john-hancock-indexes. It is not possible to invest directly in an index. Fund performance and backtested data for the index are presented net of fund fees and expenses. Performance data of the index post-inception reflects no deductions for fund fees and expenses. The John Hancock Multifactor ETFs are relatively new products and any performance prior to the inception date of the indices is hypothetical.

Each of the John Hancock Dimensional index that are used by the John Hancock Multifactor ETFs (except for the Developed International Index) is calculated by NYSE. The John Hancock Multifactor ETFs, which are based on these indexes, are not issued, sponsored, endorsed, sold, or promoted by NYSE, and NYSE makes no representation regarding the advisability of investing in such product. NYSE MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO SUCH INDEXES OR ANY DATA INCLUDED THEREIN. IN NO EVENT SHALL NYSE HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES, INCLUDING LOST PROFITS, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

The Developed International Index is the property of Dimensional, which has contracted with S&P to calculate and maintain the Developed International Index. The Developed International Index is not sponsored by S&P Dow Jones Indices or its affiliates or its third-party licensors (collectively, S&P Dow Jones Indices). S&P Dow Jones Indices will not be liable for any errors or omissions in calculating the Developed International Index. Calculated by S&P Dow Jones Indices and the related stylized mark(s) are service marks of S&P Dow Jones Indices and have been licensed for use by Dimensional. S&P is a registered trademark of Standard & Poor's Financial Services LLC (SPFS), and Dow Jones is a registered trademark of Dow Jones Trademark Holdings LLC (Dow Jones).

Investing involves risks, including the potential loss of principal. Shares may trade at a premium or discount to their NAV in the secondary market, and a fund's holdings and returns may deviate from those of its index. These variations may be greater when markets are volatile or subject to unusual conditions. Errors in the construction or calculation of a fund's index may occur from time to time. John Hancock Multifactor ETF shares are bought and sold at market price (not NAV), and are not individually redeemed from the fund. Brokerage commissions will reduce returns.

John Hancock Multifactor ETF shares are bought and sold at market price (not NAV), and are not individually redeemed from the fund. Brokerage commissions will reduce returns.
