**What you should know before investing**

*Investing involves risks, including the potential loss of principal. There is no guarantee that a portfolio's investment strategy will be successful or that education expenses will be met. Even if you contribute the maximum amount, there is no assurance that the money in your account will be sufficient to cover all the education expenses your beneficiary may incur or that the rate of return on your investment will match or exceed the rate at which education expenses may rise. The impact of inflation on education expenses is uncertain and could exceed the return on investments in your account. Please see the [Plan Disclosure Document](#) for additional risks.*

**If your state or your designated beneficiary's state offers a 529 plan, you may want to consider what, if any, potential state income-tax or other state benefits it offers, such as financial aid, scholarship funds, and protection from creditors, before investing.** State tax or other benefits should be one of many factors to be considered prior to making an investment decision. Please consult with your financial, tax, or other financial professional about how these state benefits, if any, may apply to your specific circumstances. You may also contact your state 529 plan or any other 529 education savings plan to learn more about their features. **Please contact your financial professional or call 866-222-7498 to obtain a Plan Disclosure Document or prospectus for any of the underlying funds. The Plan Disclosure Document contains complete details on investment objectives, risks, fees, charges, and expenses, as well as more information about municipal fund securities and the underlying investment companies that should be considered before investing. Please read the Plan Disclosure Document carefully prior to investing.**
