Management’s Discussion of Fund Performance

SUMMARY OF RESULTS

International Growth Fund (Class NAV/JIGHX) returned 8.14% for the year ended March 31, 2025. Global equities rose during the 12-month period, largely driven by high-growth, high-momentum artificial intelligence and technology stocks. Conditions began to shift in early 2025, however, as value stocks started to outperform their growth counterparts. On a regional basis, investor sentiment shifted to non-U.S. equities toward period end following a tech stock sell-off and uncertainty about U.S. economic policy.
