## Management’s Discussion of Fund Performance

### SUMMARY OF RESULTS

2025 Lifetime Blend Portfolio (Class A/JHAUX) returned 7.87% (excluding sales charges) for the year ended August 31, 2025. The world financial markets produced robust total returns in the 12-month period that ended on August 31, 2025. Investor sentiment was well supported by the combination of positive global growth, strong corporate earnings, and accommodative central bank policies. Equities logged double-digit gains, albeit with a stretch of volatility in March-April 2025 caused by concerns about the United States’ implementation of tariffs. Bonds also performed well, with the strongest returns coming from higher-yielding market segments.

### TOP PERFORMANCE CONTRIBUTORS

**The equity allocation made the largest contribution** | All major segments of the equity portfolio—large-, mid-, and small-cap U.S. stocks, international equities, defensive equities, and the real assets and dedicated sector portfolios—delivered positive absolute returns.

**The fixed-income allocation also contributed** | The bond portfolio registered a gain, with notable contributions coming from emerging-markets debt and short-term U.S. Treasury Inflation Protected Securities.

### TOP PERFORMANCE DETRACTORS

**U.S. Treasury STRIPS (Separate Trading of Registered Interest and Principal of Securities)** | Yields on longer-term government bonds rose in the period, weighing on STRIPS’ performance.

**Non-U.S. small-cap stocks** | Although the international equity portfolio produced a gain overall, the fund position in foreign small caps finished with a loss.
